Complete Contents

Part One Organizations, Management, and the Networked Enterprise 1

Chapter 1 Information Systems in Global Business Today 2

◆**Opening Case:** The New Yankee Stadium Looks to the Future 3

1.1 The Role of Information Systems in Business Today 5

How Information Systems Are Transforming Business 5 • What's New In Management Information Systems? 6 • Globalization Challenges and Opportunities: A Flattened World 8

◆**Interactive Session: Management** MIS in Your Pocket 10

The Emerging Digital Firm 11 • Strategic Business Objectives of Information Systems 12

1.2 Perspectives on Information Systems 15

What is an Information System? 15 • Dimensions of Information Systems 17

◆**Interactive Session: Technology** UPS Competes Globally with Information Technology 22

It Isn't Just Technology: A Business Perspective on Information Systems 24 • Complementary Assets: Organizational Capital and the Right Business Model 26

1.3 Contemporary Approaches to Information Systems 28

Technical Approach 29 • Behavioral Approach 29 • Approach of This Text: Sociotechnical Systems 29

1.4 Hands-on MIS Projects 31

Management Decision Problems 31 • Improving Decision Making: Using Databases to Analyze Sales Trends 31 • Improving Decision Making: Using the Internet to Locate Jobs Requiring Information Systems Knowledge 32

Learning Track Modules: How Much Does IT Matter?; Information Systems and Your Career, The Emerging Mobile Digital Platform 32

Review Summary 33 • Key Terms 34 • Review Questions 34 • Discussion Questions 35 • Video Cases 35 • Collaboration and Teamwork: Creating a Web Site for Team Collaboration 35

◆**Case Study:** What's the Buzz on Smart Grids? 36

Chapter 2 Global E-Business and Collaboration 40

◆**Opening Case:** America's Cup 2010: USA Wins with Information Technology 41

2.1 Business Processes and Information Systems 43

Business Processes 43 • How Information Technology Enhances Business Processes 44

2.2 Types of Business Information Systems 45

Systems for Different Management Groups 45 • Systems for Linking the Enterprise 51

◆**Interactive Session: Organizations** Domino's Sizzles with Pizza Tracker 52

E-business, E-commerce, and E-government 55

2.3 Systems for Collaboration and Teamwork 55

What is Collaboration? 56 • Business Benefits of Collaboration and Teamwork 57 • Building a Collaborative Culture and Business Processes 58 • Tools and Technologies for Collaboration and Teamwork 59

◆**Interactive Session: Management** Virtual Meetings: Smart Management 62

2.4 The Information Systems Function in Business 68

The Information Systems Department 68 • Organizing the Information Systems Function 69

2.5 Hands-on MIS Projects 70

Management Decision Problems 70 • Improving Decision Making: Using a Spreadsheet to Select Suppliers 70 • Achieving Operational Excellence: Using Internet Software to Plan Efficient Transportation Routes 71

Learning Track Modules: Systems from a Functional Perspective; IT Enables Collaboration and Teamwork; Challenges of Using Business Information Systems; Organizing the Information Systems Function 72

Review Summary 72 • Key Terms 73 • Review Questions 73 • Discussion Questions 74 • Video Cases 74 • Collaboration and Teamwork: Describing Management Decisions and Systems 74

◆**Case Study:** Collaboration and Innovation at Procter & Gamble 75

Chapter 3 Information Systems, Organizations, and Strategy 78

◆**Opening Case:** Verizon or AT&T—Which Company Has the Best Digital Strategy? 79

3.1 Organizations and Information Systems 81

What Is an Organization? 82 • Features of Organizations 84

3.2 How Information Systems Impact Organizations and Business Firms 89

Economic Impacts 89 • Organizational and Behavioral Impacts 91 • The Internet and Organizations 93 • Implications for the Design and Understanding of Information Systems 94

3.3 Using Information Systems to Achieve Competitive Advantage 94

Porter's Competitive Forces Model 95

Information System Strategies for Dealing with Competitive Forces 96 • The Internet's Impact on Competitive Advantage 99

◆**Interactive Session: Organizations** How Much Do Credit Card Companies Know About You? 100

The Business Value Chain Model 102

◆**Interactive Session: Management** Is the iPad a Disruptive Technology? 103

Synergies, Core Competencies, and Network-Based Strategies 106

3.4 Using Systems for Competitive Advantage: Management Issues 111

Sustaining Competitive Advantage 111 • Aligning IT with Business Objectives 111 • Managing Strategic Transitions 112

3.5 Hands-on MIS Projects 113

Management Decision Problems 113 • Improving Decision Making: Using a Database to Clarify Business Strategy 113 • Improving Decision Making: Using Web Tools to Configure and Price an Automobile 114

Learning Track Module: The Changing Business Environment for Information Technology 115

Review Summary 115 • Key Terms 116 • Review Questions 116 • Discussion Questions 117 • Video Cases 117 • Collaboration and Teamwork: Identifying Opportunities for Strategic Information Systems 117

◆**Case Study:** Will TV Succumb to the Internet? 118

Chapter 4 Ethical and Social Issues in Information Systems 120

◆**Opening Case:** Behavioral Targeting And Your Privacy: You're the Target 121

4.1 Understanding Ethical and Social Issues Related to Systems 123

A Model for Thinking About Ethical, Social, and Political Issues 124 • Five Moral Dimensions of the Information Age 125 • Key Technology Trends That Raise Ethical Issues 126

4.2 Ethics in an Information Society 129

Basic Concepts: Responsibility, Accountability, and Liability 129 • Ethical Analysis 129 • Candidate Ethical Principles 130 • Professional Codes of Conduct 131 • Some Real-World Ethical Dilemmas 131

4.3 The Moral Dimensions of Information Systems 131

Information Rights: Privacy and Freedom in the Internet Age 131 • Property Rights: Intellectual Property 138 • Accountability, Liability, and Control 141 • System Quality: Data Quality and System Errors 143 • Quality of Life: Equity, Access, and Boundaries 143

◆**Interactive Session: Organizations** The Perils of Texting 147

◆**Interactive Session: Technology** Too Much Technology 151

4.4 Hands-on MIS Projects 153

Management Decision Problems 153 • Achieving Operational Excellence: Creating a Simple Blog 154 • Improving Decision Making: Using Internet Newsgroups for Online Market Research 154

Learning Track Modules: Developing a Corporate Code of Ethics for Information Systems 155

Review Summary 155 • Key Terms 155• Review Questions 156 • Discussion Questions 156 • Video Cases 156 • Collaboration and Teamwork: Developing a Corporate Ethics Code 156

◆**Case Study:** When Radiation Therapy Kills 157

Part Two Information Technology Infrastructure 161

Chapter 5 IT Infrastructure and Emerging Technologies 162

◆**Opening Case:** BART Speeds Up with a New IT Infrastructure 163

5.1 IT Infrastructure 165

Defining IT Infrastructure 165 • Evolution of IT Infrastructure 166 • Technology Drivers of Infrastructure Evolution 170

5.2 Infrastructure Components 175

Computer Hardware Platforms 175 • Operating System Platforms 177 • Enterprise Software Applications 177

◆**Interactive Session: Technology** New to the Touch 178

Data Management and Storage 179 • Networking/Telecommunications Platforms 180 • Internet Platforms 180 • Consulting and System Integration Services 181

5.3 Contemporary Hardware Platform Trends 181

The Emerging Mobile Digital Platform 181 • Grid Computing 182 • Virtualization 182 • Cloud Computing 183 • Green Computing 184 • Autonomic Computing 185 • High-performance and Power-saving Processors 185

◆**Interactive Session: Organizations** Is Green Computing Good for Business? 186

5.4 Contemporary Software Platform Trends 187

Linux and Open Source Software 187 • Software for the Web: Java and Ajax 188 • Web Services and Service-Oriented Architecture 189 • Software Outsourcing and Cloud Services 191

5.5 Management Issues 194

Dealing with Platform and Infrastructure Change 194 • Management and Governance 194 • Making Wise Infrastructure Investments 195

5.6 Hands-on MIS Projects 198

Management Decision Problems 198 • Improving Decision Making: Using a Spreadsheet to Evaluate Hardware and Software Options 198 • Improving Decision Making: Using Web Research to Budget for a Sales Conference 199

Learning Track Modules: How Computer Hardware and Software Work; Service Level Agreements; The Open Source Software Initiative; Comparing Stages in IT Infrastructure Evolution 200

Review Summary 200 • Key Terms 201 • Review Questions 202 • Discussion Questions 202 • Video Cases 202 • Collaboration and Teamwork: Evaluating Server Operating Systems 202

◆**Case Study:** Salesforce.com: Cloud Services Go Mainstream 203

Chapter 6 Foundations of Business Intelligence: Databases and Information Management 206

◆**Opening Case:** RR Donnelley Tries to Master Its Data 207

6.1 Organizing Data in a Traditional File Environment 209

File Organization Concepts 209 • Problems with the Traditional File Environment 210

6.2 The Database Approach to Data Management 212

Database Management Systems 212 • Capabilities of Database Management Systems 217 • Designing Databases 219

6.3 Using Databases to Improve Business Performance and Decision Making 221 • Data Warehouses 222 • Tools for Business Intelligence: Multidimensional Data Analysis and Data Mining 224

◆**Interactive Session: Technology** What Can Businesses Learn from Text Mining? 227

Databases and the Web 228

6.4 Managing Data Resources 230

Establishing an Information Policy 230 • Ensuring Data Quality 230

◆**Interactive Session: Organizations** Credit Bureau Errors—Big People Problems 232

6.5 Hands-on MIS Projects 234

Management Decision Problems 234 • Achieving Operational Excellence: Building a Relational Database for Inventory Management 235 • Improving Decision Making: Searching Online Databases for Overseas Business Resources 236

Learning Track Modules: Database Design, Normalization, and Entity-Relationship Diagramming; Introduction to SQL; Hierarchical and Network Data Models 236

Review Summary 237 • Key Terms 238 • Review Questions 239 • Discussion Questions 239 • Video Cases 239 • Collaboration and Teamwork: Identifying Entities and Attributes in an Online Database 239

◆**Case Study:** The Terror Watch List Database's Troubles Continue 240

Chapter 7 Telecommunications, the Internet, and Wireless Technology 244

◆**Opening Case:** Hyundai Heavy Industries Creates a Wireless Shipyard 245

7.1 Telecommunications and Networking in Today's Business World 247

Networking and Communication Trends 247 • What Is a Computer Network? 247 • Key Digital Networking Technologies 250

7.2 Communications Networks 252

Signals: Digital vs. Analog 252 • Types of Networks 253 • Physical Transmission Media 255

7.3 The Global Internet 257

What Is the Internet? 257 • Internet Addressing and Architecture 258 • Internet Services and Communication Tools 261

◆**Interactive Session: Organizations** The Battle Over Net Neutrality 262

◆**Interactive Session: Management** Monitoring Employees on Networks: Unethical or Good Business? 266

The Web 268

7.4 The Wireless Revolution 275

Cellular Systems 276 • Wireless Computer Networks and Internet Access 276 • RFID and Wireless Sensor Networks 279

7.5 Hands-on MIS Projects 282

Management Decision Problems 282 • Improving Decision Making: Using Spreadsheet Software to Evaluate Wireless Services 282 • Achieving Operational Excellence: Using Web Search Engines for Business Research 282

Learning Track Modules: Computing and Communications Services Provided by Commercial Communications Vendors; Broadband Network Services and Technologies; Cellular System Generations; Wireless Applications for CRM, SCM, and Healthcare; Web 2.0 283

Review Summary 284 • Key Terms 285 • Review Questions 286 • Discussion Questions 286 • Video Cases 286 • Collaboration and Teamwork: Evaluating Smartphones 286

◆**Case Study:** Google, Apple, and Microsoft Struggle for Your Internet Experience 287

Chapter 8 Securing Information Systems 290

◆**Opening Case:** You're On Facebook? Watch Out! 291

8.1 System Vulnerability and Abuse 293

Why Systems Are Vulnerable 293 • Malicious Software: Viruses, Worms, Trojan Horses, and Spyware 296 • Hackers and Computer Crime 298 • Internal Threats: Employees 302 • Software Vulnerability 303

◆**Interactive Session: Management** When Antivirus Software Cripples Your Computers 304

8.2 Business Value of Security and Control 305

Legal and Regulatory Requirements for Electronic Records Management 306 • Electronic Evidence and Computer Forensics 307

8.3 Establishing a Framework for Security and Control 308

Information Systems Controls 308 • Risk Assessment 309 • Security Policy 310 • Disaster Recovery Planning and Business Continuity Planning 310 • The Role of Auditing 312

8.4 Technologies and Tools for Protecting Information Resources 312

Identity Management and Authentication 312 • Firewalls, Intrusion Detection Systems, and Antivirus Software 314 • Securing Wireless Networks 316 • Encryption and Public Key Infrastructure 317 • Ensuring System Availability 318 • Security Issues for Cloud Computing and the Mobile Digital Platform 320 • Ensuring Software Quality 320

◆**Interactive Session: Technology** How Secure Is the Cloud? 321

8.5 Hands-on MIS Projects 323

Management Decision Problems 323 • Improving Decision Making: Using Spreadsheet Software to Perform a Security Risk Assessment 324 • Improving Decision Making: Evaluating Security Outsourcing Services 325

Learning Track Modules: The Booming Job Market in IT Security; The Sarbanes-Oxley Act; Computer Forensics; General and Application Controls for Information Systems; Management Challenges of Security and Control 325

Review Summary 326 • Key Terms 326 • Review Questions 327 • Discussion Questions 328 • Video Cases 328 • Collaboration and Teamwork: Evaluating Security Software Tools 328

◆**Case Study:** Are We Ready for Cyberwarfare? 329

Part Three Key System Applications for the Digital Age 333

Chapter 9 Achieving Operational Excellence and Customer Intimacy: Enterprise Applications 334

◆**Opening Case:** Cannondale Learns to Manage a Global Supply Chain 335

9.1 Enterprise Systems 337

What Are Enterprise Systems? 337 • Enterprise Software 338 • Business Value of Enterprise Systems 339

9.2 Supply Chain Management Systems 340

The Supply Chain 340 • Information and Supply Chain Management 342 • Supply Chain Management Software 344

◆**Interactive Session: Organizations** Southwest Airlines Takes Off with Better Supply Chain Management 345

Global Supply Chains and the Internet 346 • Business Value of Supply Chain Management Systems 348

9.3 Customer Relationship Management Systems 349

What Is Customer Relationship Management? 349 • Customer Relationship Management Software 351 • Operational and Analytical CRM 354 • Business Value of Customer Relationship Management Systems 355

9.4 Enterprise Applications: New Opportunities and Challenges 355

Enterprise Application Challenges 355 • Next Generation Enterprise Applications 356

◆**Interactive Session: Technology** Enterprise Applications Move to the Cloud 358

9.5 Hands-on MIS Projects 361

Management Decision Problems 361 • Improving Decision Making: Using Database Software to Manage Customer Service Requests 361 • Achieving Operational Excellence: Evaluating Supply Chain Management Services 362

Learning Track Modules: SAP Business Process Map; Business Processes in Supply Chain Management and Supply Chain Metrics; Best Practice Business Processes in CRM Software 363

Review Summary 363 • Key Terms 364 • Review Questions 364 • Discussion Questions 365 • Video Cases 365 • Collaboration and Teamwork: Analyzing Enterprise Application Vendors 365

◆**Case Study:** Border States Industries Fuels Rapid Growth with ERP 366

Chapter 10 E-Commerce: Digital Markets, Digital Goods 370

◆**Opening Case:** 4Food: Burgers Go Social 371

10.1 E-commerce and the Internet 373

E-Commerce Today 373 • Why E-Commerce Is Different 374 • Key Concepts in E-Commerce: Digital Markets and Digital Goods in a Global Marketplace 378

10.2 E-commerce: Business and Technology 381

Types of E-commerce 381 • E-commerce Business Models 382

◆**Interactive Session: Organizations** Twitter Searches for a Business Model 385

E-commerce Revenue Models 387 • Web 2.0: Social Networking and the Wisdom of Crowds 389

◆**Interactive Session: Management** Facebook: Managing Your Privacy for Their Profit 390

E-commerce Marketing 392 • B2B E-Commerce: New Efficiencies and Relationships 395

10.3 The Mobile Digital Platform and Mobile E-commerce 399

M-Commerce Services and Applications 399

10.4 Building an E-commerce Web Site 401

Pieces of the Site-building Puzzle 401 • Business Objectives, System Functionality, and Information Requirements 402 • Building the Web Site: In-house Versus Outsourcing 402

10.5 Hands-on MIS 405

Management Decision Problems 405 • Improving Decision Making: Using Spreadsheet Software to Analyze a Dot-Com Business 406 • Achieving Operational Excellence: Evaluating E-Commerce Hosting Services 406

Learning Track Modules: Building a Web Page; E-Commerce Challenges: The Story of Online Groceries; Build an E-commerce Business Plan; Hot New Careers in E-commerce 407

Review Summary 407 • Key Terms 408 • Review Questions 408 • Discussion Questions 409 • Video Cases 409 • Collaboration and Teamwork: Performing a Competitive Analysis of E-Commerce Sites 409

◆**Case Study:** Amazon vs. Walmart: Which Giant Will Dominate E-commerce? 410

Chapter 11 Managing Knowledge 414

◆**Opening Case:** Canadian Tire Keeps the Wheels Rolling With Knowledge Management Systems 415

11.1 The Knowledge Management Landscape 417

Important Dimensions of Knowledge 417 • The Knowledge Management Value Chain 419 • Types of Knowledge Management Systems 421

11.2 Enterprise-Wide Knowledge Management Systems 422

Enterprise Content Management Systems 422 • Knowledge Network Systems 424 • Collaboration Tools and Learning Management Systems 424

11.3 Knowledge Work Systems 426

Knowledge Workers and Knowledge Work 426 • Requirements of Knowledge Work Systems 426 • Examples of Knowledge Work Systems 427

◆**Interactive Session: Technology** Augmented Reality: Reality Gets Better 429

11.4 Intelligent Techniques 431

Capturing Knowledge: Expert Systems 432 • Organizational Intelligence: Case-Based Reasoning 434 • Fuzzy Logic Systems 434 • Neural Networks 436 • Genetic Algorithms 438

◆**Interactive Session: Organizations** The Flash Crash: Machines Gone Wild? 439

Hybrid AI Systems 441 • Intelligent Agents 441

11.5 Hands-on MIS Projects 443

Management Decision Problems 443 • Improving Decision Making: Building a Simple Expert System for Retirement Planning 443 • Improving Decision Making: Using Intelligent Agents for Comparison Shopping 444

Learning Track Module: Challenges of Knowledge Management Systems 444

Review Summary 445 • Key Terms 446 • Review Questions 446 • Discussion Questions 447 • Video Cases 447 • Collaboration and Teamwork: Rating Enterprise Content Management Systems 447

◆**Case Study:** San Francisco Public Utilities Commission Preserves Expertise with Better Knowledge Management 448

Chapter 12 Enhancing Decision Making 452

◆**Opening Case:** What to Sell? What Price to Charge? Ask the Data 453

12.1 Decision Making and Information Systems 455

Business Value of Improved Decision Making 455 • Types of Decisions 455 • The Decision-Making Process 457 • Managers and Decision Making in the Real World 458 • High-Velocity Automated Decision Making 461

12.2 Business Intelligence in the Enterprise 461

What Is Business Intelligence? 462 • The Business Intelligence Environment 463 • Business Intelligence and Analytics Capabilities 464 • Management Strategies for Developing BI and BA Capabilities 468

◆**Interactive Session: Organizations** Data-Driven Schools 469

12.3 Business Intelligence Constituencies 471

Decision Support for Operational and Middle Management 471 • Decision Support for Senior Management: Balanced Scorecard and Enterprise Performance Management Methods 473 • Group Decision-Support Systems (GDSS) 475

◆**Interactive Session: Management** Piloting Valero with Real-time Management 476

12.4 Hands-on MIS Projects 478

Management Decision Problems 478 • Improving Decision Making: Using PivotTables to Analyze Sales Data 478 • Improving Decision Making: Using a Web-Based DSS for Retirement Planning 479

Learning Track Module: Building and Using Pivot Tables 479

Review Summary 479 • Key Terms 480 • Review Questions 481 • Discussion Questions 481 • Video Cases 481 • Collaboration and Teamwork: Designing a University GDSS 481

◆**Case Study:** Does CompStat Reduce Crime? 482

Part Four Building and Managing Systems 475

Chapter 13 Building Information Systems 486

◆**Opening Case:** CIMB Group Redesigns Its Account Opening Process 487

13.1 Systems as Planned Organizational Change 489

Systems Development and Organizational Change 489 • Business Process Redesign 491

13.2 Overview of Systems Development 494

◆**Interactive Session: Organizations** Can Business Process Management Make a Difference? 495

Systems Analysis 496 • Systems Design 498 • Completing the Systems Development Process 499 • Modeling and Designing Systems: Structured and Object-Oriented Methodologies 502

13.3 Alternative Systems-Building Approaches 506

Traditional Systems Life Cycle 506 • Prototyping 507 • End-User Development 508 • Application Software Packages and Outsourcing 510

◆**Interactive Session: Technology** Zimbra Zooms Ahead with OneView 512

13.4 Application Development for the Digital Firm 513

Rapid Application Development (RAD) 514 • Component-Based Development and Web Services 515

13.5 Hands-on MIS Projects 516

Management Decision Problems 516 • Improving Decision Making: Using Database Software to Design a Customer System for Auto Sales 517 • Achieving Operational Excellence: Redesigning Business Processes for Web Procurement 518

Learning Track Modules: Unified Modeling Language (UML); A Primer on Business Process Design and Documentation 518

Review Summary 519 • Key Terms 520 • Review Questions 520 • Discussion Questions 521 • Video Cases 521 • Collaboration and Teamwork: Preparing Web Site Design Specifications 521

◆**Case Study:** Are Electronic Medical Records a Cure for Health Care? 522

Chapter 14 Managing Projects 526

◆**Opening Case:** Coca-Cola: "Opening Happiness" with a New Project Management System 527

14.1 The Importance of Project Management 529

Runaway Projects and System Failure 529 • Project Management Objectives 530

14.2 Selecting Projects 531

Management Structure for Information Systems Projects 531 • Linking Systems Projects to the Business Plan 532 • Critical Success Factors 532 • Portfolio Analysis 534 • Scoring Models 535

14.3 Establishing the Business Value of Information Systems 536

Information System Cost and Benefits 537 • Real Options Pricing Models 538 • Limitations of Financial Models 539

14.4 Managing Project Risk 539

Dimensions of Project Risk 539 • Change Management and the Concept of Implementation 540 • Controlling Risk Factors 542 • Designing for the Organization 546

◆**Interactive Session: Organizations** DTS Systems Scores with Scrum and Application Lifecycle Management 547

Project Management Software Tools 548

◆**Interactive Session: Management** Motorola Turns to Project Portfolio Management 550

14.5 Hands-on MIS Projects 552

Management Decision Problems 552 • Improving Decision Making: Using Spreadsheet Software for Capital Budgeting for a New CAD System 552 • Improving Decision Making: Using Web Tools for Buying and Financing a Home 553

Learning Track Modules: Capital Budgeting Methods for Information System Investments; Information Technology Investments and Productivity; Enterprise Analysis (Business Systems Planning) 553

Review Summary 554 • Key Terms 554 • Review Questions 555 • Discussion Questions 555 • Video Cases 555 • Collaboration and Teamwork: Identifying Implementation Problems 555

◆**Case Study:** JetBlue and WestJet: A Tale of Two IS Projects 556

Chapter 15 Managing Global Systems 558

(available on the Web at www.pearsonhighered.com/laudon)

◆**Opening Case:** 3M: Sticky Film and Scratchy Things That Sell Around the World 559

15.1 The Growth of International Information Systems 561

Developing an International Information Systems Architecture 562 • The Global Environment: Business Drivers and Challenges 563 • State of the Art 566

15.2 Organizing International Information Systems 567

Global Strategies and Business Organization 567 • Global Systems to Fit the Strategy 568 • Reorganizing the Business 569

15.3 Managing Global Systems 570

A Typical Scenario: Disorganization on a Global Scale 570 • Global Systems Strategy 571 • The Management Solution: Implementation 573

◆**Interactive Session: Management** Fonterra: Managing the World's Milk Trade 575

15.4 Technology Issues and Opportunities for Global Value Chains 576

Computing Platforms and Systems Integration 577 • Connectivity 577 • Software Localization 579

◆**Interactive Session: Organizations** How Cell Phones Support Economic Development 580

15.5 Hands-on MIS 582

Management Decision Problems 582 • Achieving Operational Excellence: Building a Job Database and Web Page for an International Consulting

Firm 583 • Improving Decision Making: Conducting International Marketing and Pricing Research 583

Review Summary 584 • Key Terms 584 • Review Questions 585 • Discussion Questions 585 • Video Cases 585 • Collaboration and Teamwork: Identifying Technologies for Global Business Strategies 585

◆**Case Study:** WR Grace Consolidates Its General Ledger System 586
